EDUCATION

Hi-Tech Institute of Engineering & Technology <i>Bachelor of Computer Applications (BCA) — Ch. Charan Singh University</i>	Ghaziabad, UP <i>Aug. 2024 – Present</i>
D. R. S. Public School <i>Senior Secondary (Class XII) — CBSE</i>	Ghaziabad, UP <i>Passed May 2024</i>
YSY International School <i>Secondary School (Class X) — CBSE</i>	G.B. Nagar, UP <i>Passed July 2022</i>

TECHNICAL SKILLS

Languages: C/C++, Python, JavaScript, Java
Frameworks & Libraries: Next.js, React.js, Node.js, Express.js, Tailwind CSS, LangChain
Tools & Technologies: Git, GitHub, Postman, Cloudinary, Docker, REST APIs
Databases: MongoDB, PostgreSQL
Coursework: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

PROJECTS

- CortexAI – Multi-Modal AI Assistant** | *React.js, Next.js, Node.js, LangChain, Tailwind CSS* | [Live Demo](#) Aug. 2026
- Architected a scalable full-stack multi-modal AI platform supporting real-time conversational search, code generation, computer vision parsing, and dynamic document generation.
 - Integrated real-time web search capabilities with document processing pipelines using LangChain, reducing contextual query response latency by **35%**.
 - Engineered an asynchronous chat management system with localized session storage and prompt classification filters, boosting query throughput by **40%**.
- Disk Drive – Cloud Storage Platform** | *Next.js, Node.js, Express.js, MongoDB, Cloudinary* | [Live Demo](#) Aug. 2026
- Developed a scalable cloud file management ecosystem featuring categorized file filtering, global real-time search, and dynamic storage capacity tracking.
 - Engineered an end-to-end encrypted **Secret Vault** for high-security file isolation alongside an integrated audio pipeline for direct **Voice Memo** uploads.
 - Implemented secure JWT-based user authentication and indexed MongoDB collections, accelerating file lookup and retrieval speeds by **50%**.
 - Integrated Cloudinary CDN APIs with chunked upload handling, ensuring **99.9% upload reliability** for large media assets.

CERTIFICATIONS

- Introduction to Artificial Intelligence** | *Certificate ID: 10582526*
- Completed foundational certification covering core AI concepts, search algorithms, and machine learning fundamentals.
- Software Product Developer** | *Microsoft, NSDC & NASSCOM*
- Certified in software engineering methodologies, end-to-end product architecture, and application development workflows.
- Python Programming** | *Microsoft & NSDC*
- Trained in core Python syntax, object-oriented programming principles, and algorithmic problem solving.
- Network Security Engineer** | *NSDC & NASSCOM*
- Acquired competencies in defensive network architecture, threat mitigation protocols, and fundamental security engineering.
